

Is Something Not Quite Right?

- *Are you between the ages 12 – 35*
- *Do you hear your name called when no one is there?*
- *Do you have trouble thinking clearly or concentrating?*
- *Do you ever feel confused about whether something is real or imaginary?*
- *Do you ever feel as if your thoughts are being said out loud so that other people can hear them?*
- *Do you ever feel like you are being singled out or watched?*

If you answered “yes” to any of these questions – you may qualify to participate in a screening interview to determine if you are eligible for current or ongoing research studies.

“Sometimes I find it hard to relate to people or trust them”

“I feel like people are laughing and talking about me”

“I wish I knew why I feel this way”

“At times I think there’s something wrong with my eyes or my hearing”

Payment of \$20 per hour is provided for participation.

Dr. Kristin Cadenhead has recently received grant funding from the National Institute of Mental Health (NIMH) that supports a number of new research studies.
